

UNITED STATES DISTRICT COURT

for the
Eastern District of Wisconsin

In the Matter of the Search of:

FACEBOOK ACCOUNT ASSOCIATED WITH
FACEBOOK USER ID 100005176028834,
UNIVERSAL RECORD LOCATOR ("URL")
HTTPS://WWW.FACEBOOK.COM/GABRIELA.B
ELTRAN.5249

Case No. 20-MJ-85

APPLICATION FOR A SEARCH WARRANT

I, a federal law enforcement officer or an attorney for the government, request a search warrant and state under penalty of perjury that I have reason to believe that on the following person or property:

See Attachment A

located in the Eastern District of Wisconsin, there is now concealed:

See Attachment B

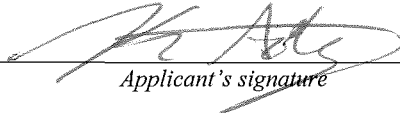

The basis for the search under Fed. R. Crim P. 41(c) is:

- ☒ evidence of a crime;
- ☐ contraband, fruits of crime, or other items illegally possessed;
- ☐ property designed for use, intended for use, or used in committing a crime;
- ☒ a person to be arrested or a person who is unlawfully restrained.

The search is related to violations of: 18 USC §§ 1962, 1963, Racketeering and Conspiracy to Commit Racketeering

The application is based on these facts: See attached affidavit.

☐ Delayed notice of _____ days (give exact ending date if more than 30 days: _____) is requested under 18 U.S.C. § 3103a, the basis of which is set forth on the attached sheet.

AFFIDAVIT IN SUPPORT OF
AN APPLICATION FOR A SEARCH WARRANT

I, Kasey C. Doty being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I make this affidavit in support of an application for a search warrant for information associated with a certain Facebook user ID that is stored at premises owned, maintained, controlled, or operated by Facebook Inc. ("Facebook"), a social networking company headquartered at 1601 Willow Rd., Menlo Park, CA 94025. The information to be searched is described in the following paragraphs and in Attachment A. This affidavit is made in support of an application for a search warrant under 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A) to require Facebook to disclose to the government records and other information in its possession, pertaining to the subscriber or customer associated with the user ID.

2. I am a Deputy with the United States Marshals Service and have been employed with the Agency since 12/27/2010. One of my primary duties is to investigate and arrest State and Federal Fugitives. I have obtained my Criminal Investigator Certification at the Federal Law Enforcement Training Center (FLETC) in Glynco, Georgia. Before my training at FLETC I received a Bachelor of Arts Degree in Criminal Justice at Boise State University. I have had previous experiences using the social media site of Facebook in order to locate and apprehend Fugitives from Justice. I am an investigator or law enforcement officer of the United States within the meaning of 18 U.S.C. Section 2510(7), in that I am empowered by law to conduct investigations.

3. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. This affidavit is intended

to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

4. Based on my training and experience and the facts as set forth in this affidavit, there is probable cause to believe that violations of 18 USC §§ 1962, 1963, Racketeering and Conspiracy to Commit Racketeering have been committed by Armando Barragan (08/04/1986). There is also probable cause to search the information described in Attachment A for evidence of these crimes and contraband or fruits of these crimes, as described in Attachment B.

5. The facts in this affidavit come from my personal observations, my training and experience, and information obtained from other agents and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

PROBABLE CAUSE

6. Armando Barragan was federally indicted in the Eastern District of Wisconsin on September 27, 2005, in case number 05-CR-240. A federal arrest warrant has been issued for Armando Barragan (8/4/1986) and the United States Marshals Service is leading the investigation in order to locate and arrest Barragan. Barragan is a lead defendant in this Federal RICO prosecution involving the Milwaukee Latin King street gang. Barragan has been directly linked and involved in a murder as well as this RICO prosecution (05-CR-240). Since indicted there have been many attempts by law enforcement to locate Barragan. Barragan has been a fugitive from justice since 2005 and it is believed that Barragan is currently living in Mexico.

7. On 2/13/2020 the affiant received information from a confidential source (CS) that Barragan has a relationship with a female who lives in Mexico. This CS has been in constant contact with me and stated that he only knows this because he has contact with the ex-girlfriend

of Barragan. The CS stated that a photo of Barragan can be seen on the Facebook page of the female that Barragan is dating. The name of the Facebook page of this female is Gabriela Beltran (<https://www.facebook.com/gabriela.beltran.5249>). The CS stated that Barragan was with Gabriela and living in San Luis Potosi City in Mexico.

8. The affiant, went to the Facebook page that was provided by the CS and located photos of Gabriela Beltran and two photos that resembled fugitive Barragan. The affiant compared photos from arrest records and a department of transportation photo of Barragan with the male on the Facebook page and it appears to be Barragan. These photos also appear that Barragan and Beltran are in a relationship. The Facebook page security settings only allows people that are friends with Beltran to view her full profile.

9. The affiant, contacted the CS in order to gain additional information on Barragan. The CS stated that Barragan has one tattoo of the name "Sylvia" on his ankle. Previous arrest records and booking info show that Barragan has a tattoo on his left ankle with the name "Sylvia". It is important to note that the mother of Barragan is Sylvia Gomez.

10. The affiant believes that information from this Facebook account will assist the United States Marshals Service in locating and arresting fugitive from justice Armando Barragan.

11. I believe that by obtaining information from Gabriela Beltrans's Facebook account, including log-in information, photographs with EXIF data, check-ins, and communications with others, I may be able to use that information to locate Armando Barragan and effectuate his arrest.

Technical Background

12. Facebook owns and operates a free-access social networking website of the same name that can be accessed at <http://www.facebook.com>. Facebook allows its users to establish accounts with Facebook, and users can then use their accounts to share written news, photographs, videos, and other information with other Facebook users, and sometimes with the general public.

13. Facebook asks users to provide basic contact and personal identifying information to Facebook, either during the registration process or thereafter. This information may include the user's full name, birth date, gender, contact e-mail addresses, Facebook passwords, Facebook security questions and answers (for password retrieval), physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers. Facebook also assigns a user identification number to each account.

14. Facebook users may join one or more groups or networks to connect and interact with other users who are members of the same group or network. Facebook assigns a group identification number to each group. A Facebook user can also connect directly with individual Facebook users by sending each user a "Friend Request." If the recipient of a "Friend Request" accepts the request, then the two users will become "Friends" for purposes of Facebook and can exchange communications or view information about each other. Each Facebook user's account includes a list of that user's "Friends" and a "News Feed," which highlights information about the user's "Friends," such as profile changes, upcoming events, and birthdays.

15. Facebook users can select different levels of privacy for the communications and information associated with their Facebook accounts. By adjusting these privacy settings, a Facebook user can make information available only to himself or herself, to particular Facebook

users, or to anyone with access to the Internet, including people who are not Facebook users. A Facebook user can also create “lists” of Facebook friends to facilitate the application of these privacy settings. Facebook accounts also include other account settings that users can adjust to control, for example, the types of notifications they receive from Facebook.

16. Facebook users can create profiles that include photographs, lists of personal interests, and other information. Facebook users can also post “status” updates about their whereabouts and actions, as well as links to videos, photographs, articles, and other items available elsewhere on the Internet. Facebook users can also post information about upcoming “events,” such as social occasions, by listing the event’s time, location, host, and guest list. In addition, Facebook users can “check in” to particular locations or add their geographic locations to their Facebook posts, thereby revealing their geographic locations at particular dates and times. A particular user’s profile page also includes a “Wall,” which is a space where the user and his or her “Friends” can post messages, attachments, and links that will typically be visible to anyone who can view the user’s profile.

17. Facebook allows users to upload photos and videos, which may include any metadata such as location that the user transmitted when s/he uploaded the photo or video. It also provides users the ability to “tag” (i.e., label) other Facebook users in a photo or video. When a user is tagged in a photo or video, he or she receives a notification of the tag and a link to see the photo or video. For Facebook’s purposes, the photos and videos associated with a user’s account will include all photos and videos uploaded by that user that have not been deleted, as well as all photos and videos uploaded by any user that have that user tagged in them.

18. Facebook users can exchange private messages on Facebook with other users. These messages, which are similar to e-mail messages, are sent to the recipient’s “Inbox” on

Facebook, which also stores copies of messages sent by the recipient, as well as other information. Facebook users can also post comments on the Facebook profiles of other users or on their own profiles; such comments are typically associated with a specific posting or item on the profile. In addition, Facebook has a Chat feature that allows users to send and receive instant messages through Facebook. These chat communications are stored in the chat history for the account. Facebook also has a Video Calling feature, and although Facebook does not record the calls themselves, it does keep records of the date of each call.

19. If a Facebook user does not want to interact with another user on Facebook, the first user can “block” the second user from seeing his or her account.

20. Facebook has a “like” feature that allows users to give positive feedback or connect to particular pages. Facebook users can “like” Facebook posts or updates, as well as webpages or content on third-party (*i.e.*, non-Facebook) websites. Facebook users can also become “fans” of particular Facebook pages.

21. Facebook has a search function that enables its users to search Facebook for keywords, usernames, or pages, among other things.

22. Each Facebook account has an activity log, which is a list of the user’s posts and other Facebook activities from the inception of the account to the present. The activity log includes stories and photos that the user has been tagged in, as well as connections made through the account, such as “liking” a Facebook page or adding someone as a friend. The activity log is visible to the user but cannot be viewed by people who visit the user’s Facebook page.

23. Facebook Notes is a blogging feature available to Facebook users, and it enables users to write and post notes or personal web logs (“blogs”), or to import their blogs from other services, such as Xanga, LiveJournal, and Blogger.

24. The Facebook Gifts feature allows users to send virtual “gifts” to their friends that appear as icons on the recipient’s profile page. Gifts cost money to purchase, and a personalized message can be attached to each gift. Facebook users can also send each other “pokes,” which are free and simply result in a notification to the recipient that he or she has been “poked” by the sender.

25. Facebook also has a Marketplace feature, which allows users to post free classified ads. Users can post items for sale, housing, jobs, and other items on the Marketplace.

26. In addition to the applications described above, Facebook also provides its users with access to thousands of other applications (“apps”) on the Facebook platform. When a Facebook user accesses or uses one of these applications, an update about that the user’s access or use of that application may appear on the user’s profile page.

27. Facebook uses the term “Neoprint” to describe an expanded view of a given user profile. The “Neoprint” for a given user can include the following information from the user’s profile: profile contact information; News Feed information; status updates; links to videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends’ Facebook user identification numbers; groups and networks of which the user is a member, including the groups’ Facebook group identification numbers; future and past event postings; rejected “Friend” requests; comments; gifts; pokes; tags; and information about the user’s access and use of Facebook applications.

28. Facebook also retains Internet Protocol (“IP”) logs for a given user ID or IP address. These logs may contain information about the actions taken by the user ID or IP address on Facebook, including information about the type of action, the date and time of the action, and the user ID and IP address associated with the action. For example, if a user views a

Facebook profile, that user's IP log would reflect the fact that the user viewed the profile, and would show when and from what IP address the user did so.

29. Social networking providers like Facebook typically retain additional information about their users' accounts, such as information about the length of service (including start date), the types of service utilized, and the means and source of any payments associated with the service (including any credit card or bank account number). In some cases, Facebook users may communicate directly with Facebook about issues relating to their accounts, such as technical problems, billing inquiries, or complaints from other users. Social networking providers like Facebook typically retain records about such communications, including records of contacts between the user and the provider's support services, as well as records of any actions taken by the provider or user as a result of the communications.

30. As explained herein, information stored in connection with a Facebook account may provide crucial evidence of the "who, what, why, when, where, and how" of the criminal conduct under investigation, thus enabling the United States to establish and prove each element or alternatively, to exclude the innocent from further suspicion. In my training and experience, a Facebook user's "Neoprint," IP log, stored electronic communications, and other data retained by Facebook, can indicate who has used or controlled the Facebook account. This "user attribution" evidence is analogous to the search for "indicia of occupancy" while executing a search warrant at a residence. For example, profile contact information, private messaging logs, status updates, and tagged photos (and the data associated with the foregoing, such as date and time) may be evidence of who used or controlled the Facebook account at a relevant time. Further, Facebook account activity can show how and when the account was accessed or used. For example, as described herein, Facebook logs the Internet Protocol (IP) addresses from which

users access their accounts along with the time and date. By determining the physical location associated with the logged IP addresses, investigators can understand the chronological and geographic context of the account access and use relating to the crime under investigation. Such information allows investigators to understand the geographic and chronological context of Facebook access, use, and events relating to the crime under investigation. Additionally, Facebook builds geo-location into some of its services. Geo-location allows, for example, users to “tag” their location in posts and Facebook “friends” to locate each other. This geographic and timeline information may tend to either inculcate or exculpate the Facebook account owner. Last, Facebook account activity may provide relevant insight into the Facebook account owner’s state of mind as it relates to the offense under investigation. For example, information on the Facebook account may indicate the owner’s motive and intent to commit a crime (e.g., information indicating a plan to commit a crime), or consciousness of guilt (e.g., deleting account information in an effort to conceal evidence from law enforcement).

31. Therefore, the computers of Facebook are likely to contain all the material described above, including stored electronic communications and information concerning subscribers and their use of Facebook, such as account access information, transaction information, and other account information.

INFORMATION TO BE SEARCHED AND THINGS TO BE SEIZED

32. I anticipate executing this warrant under the Electronic Communications Privacy Act, in particular 18 U.S.C. §§ 2703(a), 2703(b)(1)(A) and 2703(c)(1)(A), by using the warrant to require Facebook to disclose to the government copies of the records and other information (including the content of communications) particularly described in Section I of Attachment B.

Upon receipt of the information described in Section I of Attachment B, government-authorized persons will review that information to locate the items described in Section II of Attachment B.

CONCLUSION

33. Based on the forgoing, I request that the Court issue the proposed search warrant. Based on my training and experience, and the facts as set forth in this affidavit, there is probable cause to believe that on the computer systems in the control of Facebook there exists evidence of a crime of violations defined in 18 USC §§ 1962, 1963, Racketeering and Conspiracy to Commit Racketeering have been committed by Armando Barragan (08/04/1986). Accordingly, a search warrant is requested.

34. Pursuant to 18 U.S.C. § 2703(g), the presence of a law enforcement officer is not required for the service or execution of this warrant.

ATTACHMENT A

Property to Be Searched

This warrant applies to information associated with the Facebook user ID:
100005176028834 that is stored at premises owned, maintained, controlled, or operated by
Facebook Inc., a company headquartered in Menlo Park, California.

NAME	FACEBOOK USER ID (UID)	FACEBOOK NAME
Gabriela Beltran	100005176028834	Gabriela Beltran

ATTACHMENT B

Particular Things to be Seized

I. Information to be disclosed by Facebook

To the extent that the information described in Attachment A is within the possession, custody, or control of Facebook Inc. (“Facebook”), regardless of whether such information is located within or outside of the United States, including any messages, records, files, logs, or information that have been deleted but are still available to Facebook, or have been preserved pursuant to a request made under 18 U.S.C. § 2703(f), Facebook is required to disclose the following information to the government for each user ID listed in Attachment A:

- (a) All contact and personal identifying information, including 100005176028834: full name, user identification number, birth date, gender, contact e-mail addresses, physical address (including city, state, and zip code), telephone numbers, screen names, websites, and other personal identifiers.]]
- (b) All activity logs for the account and all other documents showing the user’s posts and other Facebook activities **from 12/01/2019 to 2/20/2020**
- (c) All photos and videos uploaded by that user ID and all photos and videos uploaded by any user that have that user tagged in them **from 12/01/2019 to 2/20/2020** including Exchangeable Image File (“EXIF”) data and any other metadata associated with those photos and videos;
- (d) All profile information; News Feed information; status updates; videos, photographs, articles, and other items; Notes; Wall postings; friend lists, including the friends’ Facebook user identification numbers; groups and networks of which the user is a member, including the groups’ Facebook group identification

numbers; future and past event postings; rejected “Friend” requests; comments; gifts; pokes; tags; and information about the user’s access and use of Facebook applications;

- (e) All records or other information regarding the devices and internet browsers associated with, or used in connection with, that user ID, including the hardware model, operating system version, unique device identifiers, mobile network information, and user agent string;
- (f) All other records and contents of communications and messages made or received by the user **from 12/01/2019 to 2/20/2020**, including all Messenger activity, private messages, chat history, video and voice calling history, and pending “Friend” requests;
- (g) All “check ins” and other location information;
- (h) All IP logs, including all records of the IP addresses that logged into the account;
- (i) All records of the account’s usage of the “Like” feature, including all Facebook posts and all non-Facebook webpages and content that the user has “liked”;
- (j) All information about the Facebook pages that the account is or was a “fan” of;
- (k) All past and present lists of friends created by the account;
- (l) All records of Facebook searches performed by the account **from 12/01/2019 to 2/20/2020**;
- (m) All information about the user’s access and use of Facebook Marketplace;
- (n) The types of service utilized by the user;

- (o) The length of service (including start date) and the means and source of any payments associated with the service (including any credit card or bank account number);
- (p) All privacy settings and other account settings, including privacy settings for individual Facebook posts and activities, and all records showing which Facebook users have been blocked by the account;
- (q) All records pertaining to communications between Facebook and any person regarding the user or the user's Facebook account, including contacts with support services and records of actions taken.

Facebook is hereby ordered to disclose the above information to the government within 14 days of service of this warrant.

II. Information to be seized by the government

All information described above in Section I that constitutes fruits, evidence and instrumentalities of violations of 18 USC §§ 1962, 1963, Racketeering and Conspiracy to Commit Racketeering involving Armando Barragan (08/04/1986) since 12/01/2019, including, for each user ID identified on Attachment A, information pertaining to the following matters:

- (a) Location of fugitive from justice Armando Barragan and communication between Gabriela Beltran and Armando Barragan.
- (b) Evidence indicating how and when the Facebook account was accessed or used, to determine the chronological and geographic context of account access, use, and events relating to the crime under investigation and to the Facebook account owner;
- (c) Evidence indicating the Facebook account owner's state of mind as it relates to the crime under investigation;
- (d) The identity of the person(s) who created or used the user ID, including records that help reveal the whereabouts of such person(s).

**CERTIFICATE OF AUTHENTICITY OF DOMESTIC
RECORDS PURSUANT TO FEDERAL RULES OF
EVIDENCE 902(11) AND 902(13)**

I, _____, attest, under penalties of perjury by the laws of the United States of America pursuant to 28 U.S.C. § 1746, that the information contained in this certification is true and correct. I am employed by Facebook, and my title is _____.

I am qualified to authenticate the records attached hereto because I am familiar with how the records were created, managed, stored, and retrieved. I state that the records attached hereto are true duplicates of the original records in the custody of Facebook. The attached records consist of _____ **[GENERALLY DESCRIBE RECORDS (pages/CDs/megabytes)]**. I further state that:

a. all records attached to this certificate were made at or near the time of the occurrence of the matter set forth by, or from information transmitted by, a person with knowledge of those matters, they were kept in the ordinary course of the regularly conducted business activity of Facebook, and they were made by Facebook as a regular practice; and

b. such records were generated by Facebook's electronic process or system that produces an accurate result, to wit:

1. the records were copied from electronic device(s), storage medium(s), or file(s) in the custody of Facebook in a manner to ensure that they are true duplicates of the original records; and

2. the process or system is regularly verified by Facebook, and at all times pertinent to the records certified here the process and system functioned properly and normally.

I further state that this certification is intended to satisfy Rules 902(11) and 902(13) of the Federal Rules of Evidence.
